OLD CAR BREAKFAST A SUCCESS!

The Old Car Breakfast was held on Tuesday, April 5 with well over 100 attendees. The event began at Applebee's Restaurant in Fountain Valley for breakfast. After breakfast the group was split into two groups to tour two very interesting car locations, European Collectibles and Croul Collection both located in Costa Mesa. Each tour was guided and the groups were treated to view some very interesting automobiles. Those who attended the European Collectibles facility, were able to see what it takes to restore a complete car, they specialize in Porsche's and also do work on Aston Martin, Mercedes Benz, and other automobiles. They do everything from body repair to paint and more. Those in attendance entered the Croul collection and had an opportunity to see automobiles from the 1930's through the 70's which have a significant racing history, some still competing throughout the world. This was a great mid-week outing which we hope to continue again next year. Until then, plan on joining us at the Fountain Valley Classic Car and Truck show on June 11 in Fountain Valley.
