Republic Services Service Delay Update

Impacting the City of Fountain Valley

Waste and recycling service continue to be temporarily delayed due to an unanticipated work stoppage.

Here's what to do:

- Residents should place all carts out on the curb on the regular scheduled trash day.
- If the carts were not serviced on the scheduled pick up day, Republic will service the following day similar to Holiday schedule.
- If residential customers are not serviced by the second day, residents should remove carts from the curb. Bring carts out the next regularly scheduled service day.
- Any extra material can be bagged and left next to the cart.
- Please keep curb clear for street sweeping operations.

Bulky item collection and cart exchanges will be on hold.

Commercial and Industrial collection is being provided on a limited basis. Please unlock gates and bins to provide access for service. Any questions can be directed to Republic Services at (714) 847-3581.

The City will continue to provide updates as we receive them.
